# Yining Zhou

## EDUCATION

**New York University**, *Master of Arts in Visual Arts Administration* Aug. 2024 - May 2026, New York, NY
**Parsons School of Design, The New School**, *Bachelor of Arts in Communication Design* Aug. 2020 - May 2024, New York, NY

## WORK EXPERIENCE

**VITBAND** – ***Red Dot Award: Brands & Communication Design 2026***
UI/UX Designer May 2025 - Feb. 2026, CA, Remote

- Owned end-to-end UX/UI design for a B2C mobile application for wearable muscle fatigue monitoring, AI coaching, personalized health insights, and conversational AI support as the primary designer, using Figma to create user flows, interactive prototypes, and 10+ high-fidelity screens with 20+ states across muscle monitoring, analytics, onboarding, history, and AI coaching.
- Conducted competitive analysis and user interviews to understand how athletes interpret performance data, then designed a data visualization dashboard that translated 6+ muscle metrics into clear charts, status indicators, and layered insights for faster training decisions.
- Prototyped and tested two fatigue-tracking models with 8 target users, redesigning a 100-to-0 energy model into 0-to-100 fatigue progression to improve comprehension and make training progress more intuitive.
- Defined the AI Coach experience around real-time wearable data, designing proactive fatigue and recovery guidance, 4 core quick actions, suggested prompts, conversation flows, and system states to support training decisions.
- Built a 30+ component design system in Figma and collaborated with product, engineering, hardware, and AI teams across 3 major iterations, incorporating feasibility feedback and preparing prototypes and specifications for development handoff.

**Flex Academy | Responsive Landing Page Design**
Independent Design Assignment
UX Designer Oct 2026, Remote

- Defined the information architecture and responsive UX for a marketing landing page in Figma, sequencing the value proposition, audience pain points, programme options, credibility signals, and FAQs to address visitor questions and support progression toward registration.
- Designed differentiated conversion journeys for first-time and experienced short-term rental operators, prioritizing the Launch programme while establishing a distinct Scale pathway; aligned webinar and strategy-call CTAs with relevant decision points and designed signup flows through confirmation.
- Developed a secondary lead-generation flow offering a free checklist for visitors not ready to commit, with email capture and confirmation states; adapted content hierarchy, section layouts, and form interactions across desktop and mobile to maintain clear navigation and accessible conversion paths.

**Freelance**
Independent Designer Aug. 2020 - Present, New York, NY
*Delivered branding, visual communication, and user research projects for startups, student organizations, cultural groups, and retail clients.*
- **Visual Design Projects**

- Defined the creative direction for FLOYCE Shoes' brand launch and first seasonal campaign, translating comfort-focused positioning into a "Stand on the Cloud" concept; developed a cohesive five-poster series using tactile textures, product-led compositions, and expressive typography to communicate softness and a youthful fashion identity.
- Designed brand identities, illustrations, and campaign assets across web and social media, adapting visual hierarchy, typography, and composition to placement requirements while maintaining a consistent brand language.
- Led client projects from brief through delivery, translating open-ended business objectives into visual concepts, presenting design rationale, and synthesizing stakeholder feedback into focused iterations; prepared final digital assets to meet channel specifications.

**J&J Solutions Consulting Inc.**
Marketing & Customer Strategy Intern Feb. 2026 - Apr. 2026, New York, NY

- Conducted behavioral analysis and audience segmentation on 1,600+ user interaction and advertising records across Google, Instagram, Facebook, and YouTube using SQL and Python, identifying cross-channel differences in engagement and conversion.
- Synthesized customer feedback, competitive research, and quantitative insights to map customer journeys and identify conversion friction, informing A/B tests of audience targeting and campaign messaging.
- Translated SQL- and Python-based analyses into visual reports and KPI dashboards covering five core metrics—CTR, CVR, CPC, CPA, and CPM—using charts and clear information hierarchy to communicate performance trends and support marketing decisions.

## SKILLS

**Technical & Data Skills:**Cursor, Visual Studio Code, HTML, CSS, SQL, Python, Data Analysis, Data Visualization
**Design Research:** Research Interviews, Competitive Analysis, Heuristic Evaluation, Journey Mapping, Persona Development, Information Architecture, Usability Testing
**Product Design:** Interaction Design, User Flows, Wireframing, Interactive Prototyping, High-Fidelity UI, Design Systems, Responsive Design, Accessibility (WCAG)
**Tools:** Figma, FigJam, Adobe Creative Suite (Photoshop, Illustrator, InDesign, After Effects, Premiere Pro)
